SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 p.m. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been equally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

Notice of a Floating Light stationed at the entrance of the Bombay Harbour.

The following Notice of a Floating Light stationed in the Fair Channel into Bombay Harbour, is published for general information.

By Order of the Marine board,

C. B. GREENLAW, Secy.

Fort William, }
The 19th January, 1843. }

NOTICE

Is hereby given, that a Floating Light is stationed in the Fair Channel into Bombay Harbour about $\frac{1}{2}$ of a mile to the S. W. by S. from the Fair Way Buoy, in about 9 fathoms at high water, and 7 fathoms at low spring tides, with the following bearings and distances.

Flag Staff on Malabar Point, N. $5^{\circ} 46''$ E. distance 6. 00 Nautic. Miles.

The Light House on Colaba, N. $21^{\circ} 34''$ E. distant 4. 56 Nautic. Miles.

The Fair Way Buoy N. E. by N. distant $\frac{1}{2}$ of a mile.

The Floating Light at the Sunken Rock, N. $38^{\circ} 50''$ E. distant 4. 68 miles.

Kennery Island, S. $14^{\circ} 15''$ E. distant 7. 43 miles.

The Point of the S. W. Prong in 6 fathoms foul ground bears North about 2 miles.

The Middle of Thull Shoal, E. S. E. 2 miles.

When approaching the Harbour, if the Floating Light Vessel is seen bearing on any point from N. by E. round to the Eastward as far as S. E. by S. a Ship might steer directly for it, and when up with the Light Vessel, should steer from her N. E. Easterly, so as to pass about $\frac{1}{2}$ of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel, you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E. distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball on the Light Mast, and during day-light they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half hours.

The Flood Tide comes in from S. W. and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.

D. ROSS,

Master Attendant.

BOMBAY, }
28th December, 1842. }

NOTE.—The Floating Light was tried during the last Monsoon and rode well, but in the event of her breaking adrift, the Fair Way Buoy is continued at its station.

NOTICE.

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William, }
The 12th Dec., 1842. }

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in $4\frac{1}{2}$ fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 84° East, a conspicuous tree on the centre of the small Island off Amherst, S. $61\frac{1}{2}^{\circ}$ East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 54° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in $\frac{1}{2}$ of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N. 84° East, distant $1\frac{1}{2}$ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in $8\frac{1}{2}$ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Anherat large Pagoda is in { Latitude 16° 01' 45" N.
{ Longitude 97° 35' 06" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

NOTICE

Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be felt, if common attention be paid to the lead and to the following Directions prepared by Capt. J. Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

"False Point Light House is in Latitude 20° 19' 13" N. and Longitude 85° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 85° 4' E. and bears from the former N. 61 E. true N. E. by E. $\frac{1}{4}$ E. by Compass distant 83 miles, and is laid in 12 fathoms."

"A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shews a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour."

"The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing

it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. Ed. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it."

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head, Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 p. m. at midnight

* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Gaff end to mark the way they are riding.

and at 4 a. m. Vessels approaching the Station and while there, as well as when approaching the Light, and Buoy Station Vessels are warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or heave too; and when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon; whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

Secretary.

NOTICE OF A SUNKEN EUROPEAN VESSEL OFF POOREE,

NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaut Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government, caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2651 yards, with Juggernaut Tree bearing N. 40° 59' W.

After every possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows:

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a stone colour, with bright rose coloured pannels, and on the other buff, picked out with black and green.

The remnant of the Main Sail bears the following mark:

BENSON AND SON,
LOWER SHADWELL,
LONDON,

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Biden, Master Attendant at Madras, it appears that the "Acosta," a Barque belonging to London, left Ennore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POOREE.

F. and M. Truss and
Catarpin legs.

T. Mast.

Fore Mast entire, of Fir—length 60 ft. 3 i.—Mast-head 9 ft. 9 i.—Diameter the Partners 16 inches—From heel to partners looks as if it had been painted red—above the partners for 4 ft. 9 i.—painted a dark green—above that painted white at partners—Eight flat pieces of iron fixed round the Mast—a wooden rack round the Mast for belaying-pins, secured by an iron band—no mark on the Mast indicating a lower deck.

Bowsprit of Fir, broken off just inside the knight heads—length of remains 23 feet—Diameter 19 inches—two iron hoops—outer one fitted underneath for a Chain Bobstay to be set up on; the inner Hoop for a Bobstay and Chain Bowsprit shrouds.

Main Topmast entire—extreme length 29 ft. 10 i.—Mast-head 4 ft. 7½ i.—Diameter at Cap 10½ inches—Sheave hole cut through the Mast—Iron Spider Strop with two thimbles on each side for Topgallant Rigging.

Fore Topmast of Fir, broken off at Cap—length of remains 18 ft. 9 i.—Mast-head 3 feet—Diameter at Cap 10½ inches—Iron Spider Strop fitted with two thimbles each side for Topgallant Rigging.

M. Yard

Topsail Sheet Blocks.

Main Yard of Fir—entire length 44 ft. 4 i.—Yard Arms each 11 ft. 3 i.—Diameter at slings 11 inches—Topsail Sheet Sheave at Yard Arm fitted in an iron box or casing abaft the yard, and iron plate guards for chain sheets—patent Bow Trusses—iron hoop on the centre of yard for topsail sheet blocks, which are iron.

Fore Yard Arm.

Fore Yard entire—length 43 ft. 6 i.—Yard Arm 3 ft.—Diameter 12 inches, of Fir—appears to be new—old as Main Yard—iron work in the centre of the Yard like the Main Yard—The Yard Arm Sheet Hole is through the yard with an iron plate, and two shoulders, as per margin.

F. and Main Topsail Parrel.

Main Topsail Yard of Fir—entire length 36 ft. 2 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 8½ inches—Parrel with wooden checks and iron clamp—a hoop in centre for T. Shackie—Yard Arm Sheave Hole guarded with iron wire.

Fore Topsail Yard of Poon, and apparently nearly a new Spar—Extreme length 35 ft. 6 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 9½ inches, fitted exactly like the last.

Sprit-sail Yard of Fir—Extreme length 36 ft. 3½ i.—Diameter at Slings 9½ inches—apparently had been rigged across the Forecastle.

Fore Stay Heart and Jibboom Saddle.

Jibboom broken off at the Cap, made of a close grained white wood, uncertain of its being Fir—length of remains 14 ft. 6 i.—Diameter 10½ inches—Jibboom Saddle and Fore Stay Heart in one.

All the Yards appear as if they had been primed with a lead colour, and afterwards painted black.

No Coir Yarn has been discovered, but plenty of Manilla Rope.

The following marks on the Canvass and Spars have been found:

Main top lower part,..... M

Main lower Cap, M

Fore Top in two places, M

On a Topsail, JOHN WILLIAM CHAPMAN WHITEBY BOILED.

Both Lower and Topsail Yards are fitted with Iron Jackstays.

On the Foresail No. 5.

8502

also 1 x x 28

It would appear the Vessel was a Bark, about 300 Tons, for although no part of the Mizzen Mast has been discovered, and her Main Braces led forward, the Topsail Braces led aft. The Vessel evidently was not fitted in this Country, as no particle of Coir was found about the rigging or running gear—but there was some Manilla Rope.

Notice of a Floating Light stationed at the entrance of the Bombay Harbour.

The following Notice of a Floating Light stationed in the Fair Channel into Bombay Harbour, is published for general information.

By Order of the Marine Board,

C. B. GREENLAW, Secy.

Fort William,
The 19th January, 1843. }

NOTICE

Is hereby given, that a Floating Light is stationed in the Fair Channel into Bombay Harbour about $\frac{1}{2}$ of a mile to the S. W. by S. from the Fair Way Buoy, in about 9 fathoms at high water, and 7 fathoms at low spring tides, with the following bearings and distances.

Flag Staff on Malabar Point, N. $5^{\circ} 46''$ E. distance 6. 90 Nautic. Miles.

The Light House on Colaba, N. $21^{\circ} 34''$ E. distant 4. 56 Nautic. Miles.

The Fair Way Buoy N. E. by N. distant $\frac{1}{2}$ of a mile.

The Floating Light at the Sunken Rock, N. $38^{\circ} 56''$ E. distant 4. 68 miles.

Kennerly Island, S. $14^{\circ} 15''$ E. distant 7. 43 miles.

The Point of the S. W. Prong in 6 fathoms foul ground bears North about 2 miles.

The Middle of Thull Shoal, E. S. E. 2 miles.

When approaching the Harbour, if the Floating Light Vessel is seen bearing on any point from N. by E. round to the Eastward as far as S. E. by S. a Ship might steer directly for it, and when up with the Light Vessel, should steer from her N. E. Easterly, so as to pass about $\frac{1}{2}$ of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel, you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E. distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball on the Light Mast, and during daylight they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half hours.

The Flood Tide comes from S. W. and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.

D. ROSS,

Master Attendant.

BOMBAY,
28th December, 1842. }

NOTE.—The Floating Light was tried during the last Monsoon and rode well, but in the event of her breaking adrift, the Fair Way Buoy is continued at its station.

NOTICE.

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William,
The 12th Dec., 1842. }

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in $4\frac{1}{2}$ fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 81° East, a conspicuous tree on the centre of the small Island off Amherst, S. $61\frac{1}{2}^{\circ}$ East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 54° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in $\frac{1}{2}$ of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N. 84° East, distant $1\frac{1}{2}$ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in $3\frac{1}{2}$ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude 16° 04' 48" N.
{ Longitude 97° 23' 08" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

NOTICE

Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be felt, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

"False Point Light House is in Latitude 20° 19' 14" N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 61 E. true N. E. by E 4 E. by Compass distant 83 miles, and is laid in 12 fathoms."

"A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shows a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 29 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour."

"The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing

it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. Ed. and having gradually encreased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 23 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it."

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 p. m. at midnight and at 4 a. m. Vessels approaching the Station and while there, as well as when approaching the "Light, and Buoy Station Vessels are

* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Mast Head to mark the way they are riding.

warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or heave too; and when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon; whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

NOTICE

OF A SUNKEN EUROPEAN VESSEL OFF POOREE,

NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaith Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2684 yards, with Juggernaith Tree bearing N. 40° 56' W.

Under possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows:

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a storm colour, with bright rose coloured pannels, and on the other buff, picked out with black and green.

The remnant of the Main Sail bears the following mark.

BENSON AND SON,
LOWER SHADWELL,
LONDON,

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Baden, Master Attendant at Madras, it appears that the "Acasta," a Barque belonging to London, left Lunore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POOREE.

F. and M. Truss and
Catarpin legs.

Fore Topmast of Fir, broken off at Cap—length of remains 14 ft. 1 i.—Mast-head 5 feet—Diameter at Cap 10½ inches—Iron Spider Strop fitted with two thimbles each side for Topgallant Rigging.

M. Yard

Topsail Sheet Blocks.

Main Yard of Fir—entire length 44 ft. 4 i.—Yard Arms each 3 ft. 3 i.—Diameter at slings 11 inches—Topsail Sheet Sheave at Yard Arm fitted in an iron box or casing abaft the yard, and iron plate guards for chain sheets—patent Bow Trusses—Iron hoop on the centre of yard for top-sail sheet blocks, which are iron.

Fore Yard entire—length 43 ft. 6 i.—Yard Arm 3 ft.—Diameter 12 inches, of Fir—appears to be not so old as Main Yard—Iron work in the centre of the Yard like the Main. The Yard Arm Sheet Hole is through the yard with an iron plate, and two shoulders, as per margin.

F. and Main Topsail Parrel.

Main Topsail Yard of Fir—entire length 36 ft. 2 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 8¼ inch—Parrel with wooden cheeks and iron clamp—a hoop in centre for 1. Shackle—Yard Arm Sheave Hole guarded with iron wire.

Spritsail Yard of Fir—Extreme length 36 ft. 3½ i.—Diameter at Slings 9½ inches—apparently had been rigged across the Forecastle.

Fore Stay Heart and Jibboom Saddle.

Jibboom broken off at the Cap, made of a close grained white wood, uncertain of its being Fir—length of remains 14 ft. 6 i.—Diameter 10½ inches—Jibboom Saddle and Fore Stay Heart in one.

All the Yards appear as if they had been primed with a lead colour, and afterwards painted black.

No Coir Yarn has been discovered, but plenty of Manila Rope.

The following marks on the Canvass and Spars have been found:

Main top lower part,..... M

Main lower Cap, M

Fore Top in two places, M

On a Topsail, JOHN WILLIAM CHAPMAN WHITBY BOILED.

Both Lower and Topsail Yards are fitted with Iron Jackstays.

MAFFNY

A hole

also 1 x x 28

It would appear the Vessel was a Bark, about 300 Tons, for although no part of the Mizzen Mast has been discovered, and her Main Braces led forward, the Topsail Braces led aft. The Vessel evidently was not fitted in this Country, as no particle of Coir was found about the rigging or running gear—but there was some Manilla Rope.

SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Plant."

Wednesday, 7th September, 1842.—At 1 P.M. observed the water on the Starboard bow much discoloured, kept the ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude $16^{\circ} 23' N.$ Longitude $84^{\circ} 10' East.$

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been squally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

Numerous applications having been received from Officers recently Prisoners of War or Hostages in Afghanistan, for the adjustment of their Pay and Allowances while detained in Captivity, the Right Hon'ble the Governor General is pleased to direct the re-publication of the Orders of the Hon'ble the Court of Directors, originally published in General Orders by the Governor General in Council of the 15th December 1810, for the information and guidance of parties and departments concerned.

"When an Officer shall be considered by the Enemy as a Prisoner of War in India, he shall during his residence on shore in India receive the Pay and half Batta of the Rank he may hold at the time of his Capture or may obtain by promotion there, but upon all other occasions, during his Captivity, whether on board ship in India, or ashore or on boardship in Europe, he shall receive the Pay of his Rank only."

THE 27TH JANUARY, 1843.

The following Act is passed by the Hon'ble the President of the Council of India in Council on the 27th January 1843, with the assent of the Right Hon'ble the Governor General of India, which has been read and recorded.

Ordered, that the Act be promulgated for general information.

ACT No. I. of 1843.

An Act for amending the Law concerning the Registration of written Conveyances and other instruments affecting Titles and other interests to Land.

Whereas the Registry Laws now in force in the respective Mofussils of Bengal, Madras and Bombay, provide that registered conveyances and other instruments affecting Titles to land and other interests therein shall not take precedence of unregistered conveyances and instruments in cases where the party registering shall have known of the existence of such unregistered conveyances or other instruments. And whereas a complicated system of law has arisen out of the construction which is to be given to the provisions regarding the knowledge of parties, or notice had by them in such cases. And whereas much

perjury has been committed in consequence of the fact of such notice of registered instruments at the time of the Courts has been deemed a sufficient investigation. And whereas in consequence of forgeries, perjuries, fraudulent concealments, and other practices, no person purchasing or advancing money on the security of Land, can safely rely on the conveyances or other instruments affecting the title to such land, or other interest therein affording, by means of their being registered, a Security against conveyances or instruments being set up, as of previous date, by unregistered claimants:

It is hereby enacted, that all provisions contained in any Regulation or Regulations of the Bengal, Madras or Bombay Codes, touching such knowledge or notice as aforesaid, of previous unregistered conveyances, or instruments affecting titles to land or other interests therein, shall be repealed from the first day of May next; and every conveyance or other instrument affecting title to land, or any interest in the same authorized by those Codes respectively, to be registered, shall so far as regards any lands to which the same relate, be void as against any person claiming under any subsequent conveyance or other instrument duly registered, unless the prior conveyance or instrument shall have been duly registered before the registration of the subsequent conveyance or instrument; any alleged notice or knowledge of such prior conveyance or instrument notwithstanding. Provided always that this Act shall not be construed to extend to any conveyance or other instrument made before the first day of May next.

2d.—The Opium to be offered for Sale at an Upset Price of Rupees 400 per Chest, and to be all sold to the highest bidder above that price.

3d.—If at the above Sale the entire quantity of 1,800 Chests shall not be sold, it shall subsequently be competent for the Board of Customs, Salt and Opium, to dispose of the lots which remain on hand at future Sales.

4th.—Each Lot to contain Five Chests.

5th.—A deposit in a Promissory Note for 1,000 Rupees per Lot or 200 Rupees per Chest, shall be made by the Purchaser in the Sale Room, and before the Lot is Registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'Clock of the afternoon of Friday, the 10th February 1843, or on the other hand failing such redemption by the time aforesaid, then the Lot or Lots for which no Sub-Treasurer's Receipts, or Deposit of other Public Securities as aforesaid, shall have been delivered in, shall be re-sold at such time or times, and under such Conditions of Re-sale as the Board of Customs, Salt and Opium, shall see fit, and all losses and expenses whatever attending such Re-sale, shall be borne and paid by the Defaulters, whilst any profit accruing from such Re-sale shall be forfeited to Government.

6th.—The Promissory Notes taken on the day of Sale, under the last mentioned Condition, if remaining unredemmed on the said 10th February 1843, will be placed in the hands of the Attorney to the Hon'ble Company for realization in such manner as to him shall seem fit.

7th.—No Tender of Money, Sub-Treasurer's Receipts or Public Securities, on account of Opium, upon which the prescribed deposit may not have been made before 4 o'Clock of the 10th February, will be afterwards accepted.

8th.—The Opium now advertised for Sale shall be paid for within one Calendar month from the day of Sale, that is to say no Treasury Receipts will be accepted in payment after 4 p. m. of Monday, the 6th March 1843, and in case any Lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit of 1,000 Rupees per Lot or 200 Rupees per Chest, or any Public Securities that may have been deposited on account of such Lots or Chests, shall be forfeited, and the Opium be disposed of on account of Government at such time and in such manner as the Board of Customs, Salt and Opium shall think fit.

10th.—No Sub-Treasurer's Receipts, or Deposit of Public Securities, under the 5th of the present Conditions, will be accepted in this Office, except from the party recorded as the purchaser in the Sale Book, or his authorized Agent. The Receipt for such Deposit will be granted only to the name of such Purchaser and the Public Securities deposited with him returned when the clearance has been made by the said Purchaser or his order.

11th.—The Officer Superintending the Sale on the part of the Board of Customs, Salt and Opium, is empowered to reject at his discretion the bid of any individual, unless such individual shall, on demand, tender at the time, a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or other Government Securities, equal to One Thousand Rupees per Lot, (or Two Hundred Rupees per Chest,) on each Lot so bid for.

12th.—The Purchaser of any Lot shall have the option of naming and purchasing in immediate succession any number of Lots of the same Agency Opium to the extent of Fifty Lots, and for the Lots so purchased, the Purchaser shall Deposit 1,000 Rupees per Lot, and pay the same price per Chest as that for which he purchased his first Lot, provided always that there remain a sufficient number of Lots of that Opium to complete the said Fifty, but not otherwise.

13th.—In the event of any dispute or difference touching or concerning any matter or question arising out of the Sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea and Pleas to the jurisdiction of the said Supreme Court shall be waived.

14th.—The following Papers, together with samples of the Opium for Sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date, by application at the Office of the Secretary to the Board of Customs, Salt and Opium.

No. 1.—Certificate of the Opium now advertised for Sale.
No. 2.—Report of the Examination of such Opium.

15th.—The Public are hereby informed, that in providing the investment of the Behar and Benares Opium for the year 1841-42, the same precautions have been taken as those which have been observed during past years, to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

16th.—Four Chests of Behar and Benares Opium, which have been reserved from the provision of the two preceding years, will be also shown to the Purchasers on the day of Sale, to enable them to judge of the state of preservation in which the Drug has kept.

sale, such quantity of Opium (or any part thereof) as may remain uncleared, will be sold at the sale next ensuing the date of payment, or disposed of at a sale to be held expressly for the purpose.

No. 242.

Notice of a Floating Light stationed at the entrance of the Bombay Harbour.

The following Notice of a Floating Light stationed in the Fair Channel into Bombay Harbour, is published for general information.

By Order of the Marine Board,

C. B. GREENLAW, *Secy.*

Fort William, }
The 19th January, 1843. }

NOTICE

Is hereby given, that a Floating Light is stationed in the Fair Channel into Bombay Harbour about $\frac{1}{2}$ of a mile to the S. W. by S. from the Fair Way Buoy, in about 9 fathoms at high water, and 7 fathoms at low spring tides, with the following bearings and distances.

Flag Staff on Malabar Point, N. $5^{\circ} 46''$ E. distance 6. 90 Nautic. Miles.

The Light House on Colaba, N. $21^{\circ} 34''$ E. distant 4. 56 Nautic. Miles.

The Fair Way Buoy N. E. by N. distant $\frac{1}{2}$ of a mile.

The Floating Light at the Sunken Rock, N. $38^{\circ} 56''$ E. distant 4. 68 miles.

Keunery Island, S. $14^{\circ} 15''$ E. distant 7. 43 miles.

The Point of the S. W. Prong in 6 fathoms foul ground bears North about 2 miles.

The Middle of Thull Shoal, E. S. E. 2 miles.

When approaching the Harbour, if the Floating Light Vessel is seen bearing on any point from N. by E. round to the Eastward as far as S. E. by S. a Ship might steer directly for it, and when up with the Light Vessel, should steer from her N. E. Easterly, so as to pass about $\frac{1}{2}$ of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel, you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E., distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball on the Light Mast, and during daylight they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half hours.

The Flood Tide comes in from S. W. and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.

D. ROSS,

Master Attendant.

BOMBAY, }
28th December, 1842. }

NOTE.—The Floating Light was tried during the last Monsoon and rode well, but in the event of her breaking adrift, the Fair Way Buoy is continued at its station.

NOTICE.

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William, }
The 12th Dec., 1842. }

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in $4\frac{1}{2}$ fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 84° East, a conspicuous tree on the centre of the small Island off Amherst, S. $61\frac{1}{2}^{\circ}$ East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 54° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in $\frac{1}{2}$ of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N. 84° East, distant $1\frac{1}{2}$ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in $3\frac{1}{2}$ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or on to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude 16° 04' 48" N
Longitude 97° 35' 06" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

NOTICE

Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be felt, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

"False Point Light House is in Latitude 20° 19 1/2' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 86° 4' E., and bears from the former N. 61 E. true N. E. by E. 1/2 E. by Compass distant 88 miles, and is laid in 12 fathoms."

"A Back of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shews a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour."

"The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing

it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. Ed. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it."

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 P. M. at midnight

* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Staff end to mark the way they are riding.

Vessels approaching the Station and while there, as well as when approaching the Light, and Buoy Station Vessels are warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or heave too; and when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon; whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

NOTICE

OF A SUNKEN EUROPEAN VESSEL OFF POOREE, NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaut Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government, caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2684 yards, with Juggernaut Tree bearing N. 40° 59' W.

After every possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows :

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a stone colour, with bright rose coloured pannels, and on the other buff, picked out with black and green.

The remnant of the Main Sail bears the following mark :

**BENSON AND SON,
LOWER SHADWELL,
LONDON,**

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Riden, Master Attendant at Madras, it appears that the "Acasta," a Barque belonging to London, left Ennore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POORIE.

TAFFORD & FORSTER

It would appear the Vessel was a Bark, about 300 Tons, for although no part of the Mizzen Mast has been discovered, and her Main Braces led forward, the Topsail Braces led aft. The Vessel evidently was not fitted in this Country, — no particle of Coir was found about the rigging or running gear—but there was some Manilla Rope.

SHIPPING INTELLIGENCE

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 P.M. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 28' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been equally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

XLII. AND it is further enacted, that the said Bank shall continue as hereby constituted until the 1st day of June, which will be in the year of our Lord 1850, and shall thereafter continue in like manner until duly dissolved or modified, provided however that after the said 1st day of June 1850, the said Bank shall not, except upon the application or by the consent of the Proprietors of the said Bank be dissolved, or any wise modified without previous notice of twelve months at the least being given by the Governor General of India in Council, or by the Government of the Presidency of Fort Saint George to the Directors of the said Bank for the time being of such intended dissolution or modification. Provided also that in the event of the said Bank at any time suspending any Cash Payments the benefits granted to the said Bank by the present Act of Incorporation shall be thenceforth forfeited.

By THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.

The Right Hon'ble the Governor General has been pleased to direct the following report of the operations of the troops under Major General McCaskill, K. H., on the march to and from Cabool, to be published for general information.

By order of the Right Hon'ble the Governor General of India,

Head Quarters, Camp Ess-Khan-ke-kote, 12th January, 1843.

Sir,

I have the honor, by direction of His Excellency the Commander-in-Chief, to forward, for the purpose of being laid before the Right Honorable the Governor General, copy of a letter from Major General G. Pollock, C. B. No. 806, of the 28th ultimo, forwarding copies of Major General McCaskill's despatches, dated the 16th September, and 20th October last, reporting the operations of the troops under his orders on the march to and from Cabool.

Forwards copies of Major General McCaskill's despatches, reporting the operations of the troops under his orders, on the march to and from Cabool.

I have, &c.,

Commanding Troops returned from Afghanistan,

To the Adjutant General of the Army.

Camp Porezapore, 28th December, 1842.

Sir,

I have the honor to forward, for submission to His Excellency the Commander-in-Chief, the original reports of Major General McCaskill, K. H., and those of the Officers under his

orders, during the advance on and subsequent march from Cabool, as there is every reason to believe the copies transmitted to Head Quarters, never reached your office.

From Major General J. McCaskill, K. H.,
Commanding Infantry Division,

To the Assistant Adjutant General.

Camp near Cabool, 16th September, 1842.

Sir,

I beg to report for the information of Major General Pollock, C. B., that the column detailed in the margin, which he entrusted to my command on the 6th instant, completed its advance from Gundamuck to Soorkhab, and again its forced march from Kuttur Sung to Tezeen, with little interruption from the enemy. But on the route from Soorkhab to Jugdulluck, and from the latter place to Kuttur Sung, the Ghilzies showed themselves in considerable force and attacked our columns and baggage with much boldness and perseverance. All their efforts were, however, foiled by the steadiness of the troops, and the good dispositions of Brigadier Monteath, C. B., and the Officers commanding our advanced and rear guards, especially Lieutenant Colonel Richmond,

It is gratifying to me to have to state, that a predatory enemy was unable to capture from us the least article of our baggage or stores, and that the only loss sustained of this kind, which could be deemed of importance, arose from the total exhaustion of a portion of our carriage animals, when our march was necessarily doubled, to enable us to rejoin the Head Quarters at Tezeen. I beg to enclose a return of casualties on the 9th, 10th, and 11th instant.

To Captain HAVELOCK,
Deputy Assistant Adjutant General, Infantry Division.

Camp Tezeen, 12th September, 1842.

Sir,

I have the honor, for the information of Major General McCaskill, K. H., to transmit to you reports from Lieutenant Colonel Bolton, Her Majesty's 31st regiment; Lieutenant Colonel Richmond, 33rd native infantry, and Major Skinner, Her Majesty's 31st regiment, detailing the occurrences on the rear guards, from Soorkhab to this place.

In regard to those circumstances that came under my own observation and arrangement, I beg to say, that, immediately on leaving Soorkhab, the enemy began to show themselves on the heights and to fire on the troops, and as we approached the Jugdulluck pass, observing that their numbers were becoming formidable, and that they were gradually closing in upon our left, it occurred to me that their object was to allow the main column to get through the pass, and then to attack the baggage when it should be collected at the gorge.

This opinion (and I found it fully confirmed afterwards) induced me to send and direct Lieutenant Colonel Richmond, commanding the advance, to halt on arriving at the entrance of the pass, and there wait my further instructions.

Having halted the main column, I allowed the ammunition and the whole of the baggage to pass on, and when every thing was up, I then directed Lieutenant Colonel Richmond to proceed with the advance down the pass and to occupy the heights on each side, which was very properly done by that officer.

On this operation being completed, I then passed every thing down, and on the rear guard, joining me, I moved off with the main column through the pass to the great disappointment of the enemy, no doubt, (as they did not get a single thing) and arrived in camp at half past 8 p. m., a sharp fire having been kept up on the column throughout the pass.

On the march from Jugdulluck to Kuttur Sung, from the circumstance of the enemy being in force all round the camp, I directed the advance guard to move off, and allowed the baggage to proceed in its rear, and when about two-thirds of it had left the ground, I followed with the main column, leaving the remainder to the care of the rear guard.

On this occasion no loss was sustained, except what is detailed in Lieutenant Colonel Richmond's report; the main column arrived in camp at 20 minutes after 4 p. m.

On the march from Kuttur Sung to this place, I despatched the whole of the baggage immediately after the advance guard, then moved in rear of it with the main column, leaving the godown bullocks to be looked after by the rear guard.

During the march very little molestation was experienced from the enemy; but I am sorry to say that in consequence of the two marches having been performed in one, an elephant, the

camp equipage of Major Delafosse's troop of artillery, many camels, bullocks, and some private property were lost, owing to the cattle, from their previous exhausted state, not being equal to the work.

The waggons of Captain Alexander's troop required to be pulled nearly the whole way by the men of Her Majesty's 31st regiment, and one waggon was dragged altogether (the horses having been taken out) by the sepoys of the 33d and 60th regiments; the main column arrived in camp at 20 minutes past 7 p. m. It may not be unnecessary for me to report that the sepoys when called upon to perform the labor of dragging the waggon, came forward with a cheerfulness, and did the work with a spirit that was remarkable and deserving of the highest praise.

The march from Gundamuck to Soorkhab was conducted in the ordinary manner, and nothing deserving of mention occurred.

Enclosed I beg to send a return of casualties.

From Major THOMAS SKINNER, *H. M.'s 31st Regt.,*
In Command of Rear Guard,

To Lieutenant LUGARD,
Brigade Major, 4th Brigade.

Camp Tezeen, 11th September, 1842.

SIR,

I have the honor to report, for the information of Brigadier Monteath, C. B., that when the ground we occupied at Kuttur Sung was quite clear of baggage, I withdrew the picquets from the heights above it, and advanced them to those nearest the ascent to the road above, until the guns and waggon were passed up, which was accomplished by $\frac{1}{2}$ past 11 A. M. I then withdrew my posts by the heights on my flanks and continued towards Seh Baba, where I arrived without any molestation about 3 p. m. the necessity of dragging the guns up the many hills on the road rendering our progress slow. From Seh Baba to Tezeen, the rear guard was very much delayed by the many animals who fell exhausted from the heaviness of the march. I am afraid there was much loss of grain and baggage cattle. I destroyed, I hope, every thing that had been left in the rear, and that the enemy gained nothing by the failure of our cattle.

On ascending the hill at the entrance to the Tezeen valley, a party of the enemy, from the base of the hills on our left, fired into us, but without effect; two shrapnell shells thrown among them with great precision silenced their fire, and they fled to the heights out of shot, leaving, I think, some killed or wounded below. I pushed on when these people were dispersed, and reached camp at a little before 8, without casualty.

From Lieut.-Col. A. F. RICHMOND, *33d Regt. N. I.,*
Commanding Rear Guard of the 2d Division,

To Lieutenant LUGARD,
Major of Brigade, 4th Infantry Brigade.

Camp Kuttur Sung, 10th September, 1842.

SIR,

I have the honor to report for the information of Brigadier Monteath, C. B., commanding the 4th Infantry brigade, that the rear guard this morning, under my command, did not leave Jugdulluck until the whole of the baggage had cleared the ground about 11 o'clock A. M.

As the enemy appeared in great numbers all around, and gradually closing on us, I directed the guns to be placed in a commanding position on our line of route, to cover the picquets, which soon after withdrew, on signals previously arranged, and formed on the low ground in front, in skirmishing order, slowly retiring, and ultimately forming on both flanks of the guns. The enemy, as I expected, instantly rushed forward from all directions, except our rear, but were checked by the very effective fire of the guns, ably directed by Captain Lawrence, Political Agent, who volunteered his services, and by Lieut. Abercrombie.

As the high ground, we occupied, afforded good cover, I determined to hold it with two companies of infantry, until the guns could be withdrawn, and dragged up the steep hill in our rear, an operation which required the aid of the remainder of the infantry.

At this time, the enemy kept up a sharp fire, but all I desired was accomplished in good order; and having secured new positions in the rear, I recalled the two companies, left in position, and commenced my march, occupying new posts where necessary, which were withdrawn in succession, until the enemy ceasing to annoy us, and the country becoming a little more open, enabled me to recall all the covering parties and prosecute my march towards camp, where I arrived about 8 o'clock p. m., bringing every thing safely in, excepting one bullock-load of commissariat grain found on the road, which was given to the men of the irregular cavalry, also a few bullocks and two camels left on the road, which were destroyed, being unable to proceed.

The troops, both European and native, were very steady and exerted themselves cheerfully in dragging the guns.

Our casualties, I am glad to say, were few, one Officer (Lieut. Brooke,) two men of Her Majesty's 31st foot, and two Sepoys of the 60th regiment native Infantry, were wounded.

Sir,

I beg to report to you, for the information of Major General Pollock, C. B., that the force of the 2d column under my immediate command, as detailed in the margin, was attacked by the predatory tribes of the mountains, on its march from Tezeen, from which point it was separated from your Head Quarters, up to the date of its arrival at Gundamuck. The most serious opposition which it encountered, was in the defile of Jugdulluck, celebrated for the previous conflicts between the Ghilzies, and our troops last year, and during the late advance on Cabool.

I broke up from my encampment at the foot of this pass, early on the morning of the 18th instant, and made arrangements, as I advanced, in proportion, of course, to my numerical strength, for the occupation of the several strong points which commanded the road. Detached parties began to show themselves as my force reached the crest of the position, and after disposing flanking detachments on the dominating heights to the right and left, I awaited the approach of Brigadier Monteth with the main body of the column, before I descended into the lower ground beyond.

The necessity for this caution was soon demonstrated, for as the Brigadier took up his position on the plateau, partially occupied by the ruins of the well known fort, he observed the enemy colling in force around him. He, therefore, very properly, determined to hold the head of the pass until the whole of the baggage and material had moved down towards the plain below, and the rear guard under Lieutenant Colonel Richmond should have joined him on the eminence. He placed his guns in battery, and their fire and that of the troops, completely held the enemy, who were very numerous, in check, and he reports with much satisfaction, that though the attempts of the Ghilzies were obstinate and persevering, they did not succeed in making themselves masters of a single article of baggage or military stores. A sharp conflict was, however, sustained upon particular points whilst the rear guard was coming up, in the one direction, and our long train of animals ascending in the other. The Brigadier finally gave over charge of the position to Lieut.-Col. Richmond and his rear guard, whom he counselled to retain it one quarter of an hour after his own troops advanced beyond it. The succession of lower eminences on either flank had, in the meantime, been crowned, so far as our limited means permitted, under my personal direction, by parties from the advanced guard from Jugdulluck to the valley of Sourkhab, and the baggage was thus protected from the attacks of the predatory bodies, which were hovering around it, along that whole line of road. Lieutenant Colonel Richmond and the rear guard were vigorously pressed by the Ghilzies, as they finally came down from the plateau, but every where most creditably repelled the enemy, and made their way late in the evening to our encampment at Sourkhab. I have to regret that Captain Burnett, 54th native infantry, who had been recently released from a captivity, commenced at Ghuznee, was severely wounded on the heights, having volunteered his services with a party of the 16th native infantry. Brevet Captain Pender, Her Majesty's 31st foot, had received a bad hurt in a previous skirmish near Seh Baba. Throughout these affairs, the conduct of the troops employed, including the 2d and 16th native infantry, temporarily attached to me, has deserved my highest approbation, and I feel it to be my duty to record, that on the advance to Cabool, and in retiring from it, the bravery of that portion of the 4th brigade which took part in the active operations, viz. Her Majesty's 31st regiment, and a wing of the 33d native infantry, (the remaining wing and the 6th native infantry having been detained to garrison Jellalabad and Gundamuck) as well as their endurance of privations and fatigue, have been beyond all praise. No troops could in every respect have behaved better, and I feel myself to be deeply indebted to Brigadier Monteth, C. B., and to Lieutenant Colonel Bolton, Her Majesty's 31st, and Lieutenant Colonel Richmond, 33d native infantry, for the able and gallant manner in which they have been led.

I enclose a return of killed and wounded.

 To the Assistant Adjutant General.

Camp Seh Baba, 15th October, 1842.

Sir,

I have the honor of addressing you, to report, for the information of Major General Pollock, C. B., that in consequence of the great delay created by the captured guns, which it was necessary with extreme labor to drag almost the whole way from Khoord Cabool to Tezeen, on account of the badness of the bullocks, and which work was performed in a most admirable manner by the men of Her Majesty's 31st regiment, I did not enter the Huft Kotul pass with the force under my command, until late yesterday evening.

Rear Guard consisting of:
 Capt. Blood's battery of 9-pounders.
 1 squadron 1st light cavalry.
 2 rissallahs 3d irregular cavalry.
 H. M.'s 31st regiment.

For about one half of the way through, the troops met with no molestation, but as the pass narrowed and became more difficult for the passage of the guns, the

2d regiment N. I.

enemy took advantage of the stoppages occasioned by them, and from their positions, which the darkness rendered it impossible to perceive, except by the flashing of their fire arms, opened a sharp fire on the troops which was checked, in a considerable degree, on the right flank of the column by two companies of the 2d regiment and a party Her Majesty's 31st regiment, detached by me for the purpose.

As this latter party, from the immediate necessity that existed for their services, was taken by me from the fatigued detail at the guns (with which I happened to be at the time) I sent it out under Brigade Major Lugard, who, in returning from the duty on which he was employed, had his horse severely wounded.

The enemy having in the end come down sword in hand upon the rear and left flank of the column, I ordered Lieutenant Colonel Richmond, with the wing of the 33d regiment, and the picquets of the old ground that had joined on the march to keep them in check, which was satisfactorily done, until we had cleared the pass.

Enclosed I beg to send a return of killed and wounded.

To Captain HAVELOCK,

Camp Gundamuck, 19th October, 1842.

SIR,

I have the honor of reporting, for the information of Major General McCaskill, K. H., that on arriving yesterday morning with the main column of the division in the Jugdulluck pass, I observed that the enemy were collecting in force on the heights; therefore, conceiving that an attack would be made upon the baggage, as well as upon the rear guard, I determined upon taking up a position, with the whole of my force, at the head of the pass, until all the baggage and material had gone through, and I had been joined by the rear guard under Lieutenant Colonel Richmond.

In pursuance of this determination, I placed the troops and two 9-pounders in position on the plateau at the head of the pass, from whence the heights on both sides are commanded for a considerable distance.

The fire of these and of the guns, completely held the enemy, who were very numerous, in check, and I had the satisfaction of seeing the whole of the baggage out of the pass without a single thing having been obtained by them; and on the arrival of Lieutenant Colonel Richmond with the rear guard, I resigned the position to him and marched on to protect the baggage, which had then become placed between the advance and the main column.

Lieutenant Colonel Richmond, who had been directed by me to remain in position for a quarter of an hour after my departure with the rear guard, consisting of six hundred and nineteen rank and file and two guns, reports that on his withdrawal, the enemy, to the extent of about six hundred men, came forward in a very determined manner and followed him up for a considerable distance, although frequently driven back by the fire of the troops and guns.

Enclosed I beg to transmit a return of killed and wounded, and ammunition expended in the main column and rear guard during the day.

SIR,

I have the honor of transmitting a report of the occurrences which took place with that portion of the force under my command, in the Jugdulluck pass, on the 18th instant.

As from what I have learnt, I have reason to think, that the reports of the former march from Soorkhab to Tezeen, when the casualties in the force amounted to sixty-two, have not been forwarded to Government; and as I consider it very desirable it should be on record that the toils, dangers, and deserts of my brigade have not been in any degree less than those of the other portions of the army, I have to request, that Major General McCaskill will be good enough to express to Major General Pollock, my wish that my three reports may be forwarded for the information of the Governor General.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR
GENERAL OF INDIA.

CAMP KURNAUL, the 25th January, 1843.

The Right Hon'ble the Governor General has much pleasure in publishing for general information, the following copy of paragraphs which will form the next Military Letter to the Governor General of India in Council, from the Hon'ble the Court of Directors:—

1. We have the highest gratification in forwarding to you the accompanying copy of a letter from the Secretary of State, for the Colonial Department, announcing that, as a signal mark of approbation of the distinguished services of Major General Pollock and Major General Nott, in the late campaign in Afghanistan, the Queen has been graciously pleased to confer upon both of those Officers, the dignity of Grand Cross of the Most Hon'ble the Military Order of the Bath.

2. We have also, with reference to our Military despatch of the 30th ultimo, the satisfaction to enclose to you copies of further letters from the Right Honorable Lord Stanley, announcing, that Her Majesty has been pleased to permit such of the Officers, non-commissioned officers and privates of Her Majesty's army, as were engaged in the recent operations in Afghanistan, to wear the Medals which, for similar services, have been conferred by the Government of India, upon the soldiers of the East India Company's army, and also to permit the Officers of that army to wear in this country, the Medals conferred upon them for services in Afghanistan.

To the Lord FITZGERALD and VESCI,

&c. &c. &c.

Downing Street, 3d December, 1842.

MY LORD,

It affords me much pleasure to inform your Lordship, that the Queen has been graciously pleased to mark Her approval of the distinguished services of Major General Pollock and Major General Nott, in the late campaign in Afghanistan, by conferring upon both of those Officers, the Military Grand Cross of the Order of the Bath.

It did not escape Her Majesty's notice, that the advance at once to the highest class of the Order of two officers, neither of whom had been previously decorated with the Commander's Cross, was a deviation from the established practice; but Her Majesty was pleased to consider the deviation as fully warranted by the occasion, and has authorized me to express Her Majesty's satisfaction in being enabled to mark, thus signally, Her high sense of the merits of the two Officers in question.

I have, &c.,

(Signed) STANLEY.

To the Lord FITZGERALD and VESCI.

Downing Street, 5th December, 1842.

MY LORD,

I have the honor to acknowledge the receipt of your Lordship's letter of the 5th instant, together with its enclosure, requesting that Her Majesty's gracious permission may be obtained for the Officers of the East India Company's army, who have participated in the late glorious successes in Afghanistan, to wear in this country, the Medals which have been granted to them in the General Orders issued by the Governor General of India, and I have to inform you in reply, that Her Majesty has been graciously pleased to signify Her approval of that indulgence being extended to the Officers in question.

I have, &c.,

MY LORD,

I have been honored with the Queen's commands to signify to His Grace the Commander in Chief, Her Majesty's gracious pleasure, in reference to so much of the General Order issued by the Governor General of India, and communicated to me in your Lordship's letter of the 28th ultimo, as relates to the Officers and men in the service of Her Majesty, recently employed under the orders of the Governor General, and I have the honor to enclose to your Lordship, a copy of the letter which I have addressed to His Grace, in obedience to Her Majesty's commands.

I have, &c.,

To His Grace the Duke of WELLINGTON, K. G.

&c. &c. &c.

Downing Street, 3d December, 1842.

MY LORD DUKE,

It appears by a General Order, dated Simla, October 4, 1842, extract of which is herewith transmitted to your Grace, that the Governor General of India has seen fit to direct, that Medals should be struck and issued to every Officer, non-commissioned officer and private, of the Indian army, serving in the corps, and on the occasions therein set forth, (paras. 4, 5, 6, 7, 8 and 9.) These Medals are to be worn suspended to a riband, similar to that which will be given with a Medal conferred in like manner by the Governor General, on those who were engaged in the defence of Jellalabad.

The Governor General having further expressed in the same General Order, his earnest desire, that the regiments in the service of Her Majesty, which were employed on the same occasions, under the orders of the Governor General, should be permitted to receive and wear similar decorations, I have submitted the question to the Queen for the signification of Her Majesty's pleasure, and I have the honor to acquaint your Grace, that Her Majesty has been graciously pleased to permit such of the Officers, non-commissioned officers and privates, of Her Majesty's army, as were engaged in any of the operations above referred to, to receive, respectively, Medals similar to those issued by the Governor General to the Indian army, in commemoration of the same services, and to wear such Medals suspended by the Indian riband, in all parts of Her Majesty's dominions.

The Right Hon'ble the Governor General has much pleasure in publishing, for general information, the following Extracts paras. 1, 2, 3 and 5 of a Military Letter from the Hon'ble the Court of Directors, to the Government of India, No. 16, under date the 30th November 1842.

Para 1. The momentous events which have just occurred in Afghanistan—their great importance to the interests of the British Empire in India, and the distinguished gallantry, perseverance and discipline which have marked the conduct of the European and Native Troops engaged in their accomplishment, fully justify the Resolution taken by the Governor General, after communication with the Commander in Chief, to confer on the East India Company's Troops Medals in commemoration of the particular services in which they have been engaged.

2. We therefore cordially approve of the Resolutions to grant Medals to the Company's Troops engaged in the defence of Jellalabad during its memorable siege, to those engaged at Candahar and in the gallant defence of Kelat-i-Ghiltzie, and to the Forces by which Ghuznee and Cabul have been again occupied.

3. We also fully approve and confirm the other measures taken for perpetuating the recollection of these important services as announced in the General Order by the Governor General, dated the 4th October 1842.

5. The donation of six months' full Batta to the Troops specified in para. 1 of the same General Order has our entire approbation.

The following Act is passed by the Hon'ble the President of the Council of India in Council on the 27th January 1843, with the assent of the Right Hon'ble the Governor General of India, which has been read and recorded.

Ordered, that the Act be promulgated for general information.

ACT No. I. of 1843.

An Act for amending the Law concerning the Registration of written Conveyances and other instruments affecting Titles and other interests to Land.

Whereas the Registry Laws now in force in the respective Mofussils of Bengal, Madras and Bombay, provide that registered conveyances and other instruments affecting Titles to land and other interests therein shall not take precedence of unregistered conveyances and instruments in cases where the party registering shall have known of the existence of such unregistered conveyances or other instruments. And whereas a complicated system of law has arisen out of the construction which is to be given to the provisions regarding the knowledge of parties, or notice had by them in such cases. And whereas much perjury has been committed in investigations touching the fact of such notice or knowledge, and much of the time of the Courts has been occupied with such investigations. And whereas in consequence of forgeries, perjuries, fraudulent concealments, and other practices, no person purchasing or advancing money on the Security of Land, can safely rely on the conveyances or other instruments affecting the title in such land or other interest therein affording, by means of their being registered, a Security against conveyances or instruments being set up, as of previous date, by unregistered claimants:

It is hereby enacted, that all provisions contained in any Regulation or Regulations of the Bengal, Madras or Bombay Codes, touching such knowledge or notice as aforesaid, of previous unregistered conveyances, or instruments affecting titles to land or other interests therein, shall be repealed from the first day of May next; and every conveyance or other instrument, affecting title to land, or any interest in the same authorized by those Codes respectively, to be registered, shall so far as regards any land in which the same relate, be void as against any person

claiming under any subsequent conveyance or other instrument duly registered, unless the prior conveyance or instrument shall have been duly registered before the registration of the subsequent conveyance or instrument; any alleged notice or knowledge of such prior conveyance or instrument notwithstanding. Provided always that this Act shall not be construed to extend to any conveyance or other instrument made before the first day of May next.

The following Draft of a proposed Act was read in Council for the first time on the 1st of February, 1843.

Act No. — of 1843.

An Act for declaring the illegality of Slavery throughout the Straits' Settlements.

Whereas in certain parts of the Straits' Settlements Slavery has never had any legal existence, and in the other parts, in which it is doubtful whether formerly it had such legal existence, it is no longer warranted by custom, or the supposed rights connected therewith have been expressly abandoned.

It is hereby declared and enacted, that in no part of the Straits' Settlements shall the Status of Slavery be recognized as existing by law. And all Courts and Officers of Law are hereby prohibited from enforcing any claims founded on any supposed rights of Masters in regard to Slaves within the Settlements aforesaid, and are enjoined to afford protection to all persons against whom any supposed rights of Slavery are attempted to be enforced.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India after the 1st day of May next.

OVERLAND LETTERS AND POSTAGE.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except
 Soldiers' and Sailors' Letters, intended for transmission
 by the Overland Mails, and except those specially
 marked via "Falmouth," will be sent through France,
 and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to
 France as well as those to other foreign countries, with
 which France is the channel of communication (if the
 latter are expressly directed to be so sent) will be made
 up in Packets and sent to the French Post Master at
 Marseilles; but Letters for Foreign Countries, other
 than France, if not specially directed to France, will
 be included in the Packets for England. Letters, &c,
 for places lying between Bombay and Marseilles, will
 be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great
 Britain, weighing less than a quarter of an ounce, and
 passing through France, are charged single postage,

 subject to single postage only, which by that route,
 has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of post-
 age; but if transmitted by the way of Marseilles, they
 are charged 2d. each.

Easterly, so as to pass about $\frac{1}{2}$ of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel, you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E., distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball on the Light Mast, and during daylight they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half-hours.

The Flood Tide comes in from S. W. and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.
